

### 39708-00-194071 Elite Pro Comprehensive Coverage

#### HOOD DIMENSIONS – ONE SIZE HOOD FITS ALL

- 1. Sure-Fit<sup>™</sup> panel 3" wide from top of face opening and extends to where bib is attached, in place of traditional center seam.
- 2. Quilted fabric extends to circular face opening, which is  $4 \frac{1}{2}$ " to 5  $\frac{1}{2}$ " in diameter.
- 3. Width around bottom (1/2) approximately 27".
- 4. Width around hood from edge of shoulder cap to opposite edge of shoulder cap, approximately 17".
- 5. Front length of hood from top to bottom, approximately 23".
- 6. Back length of hood from top to bottom, approximately 21  $\frac{1}{2}$ ".
- 7. Width of hood above face opening, approximately 9 ½".
- 8. Width of hood mid-face opening to back, approximately 8 ¾".
- 9. Length of hood at side from top to bottom, approximately 18 %.
- 10. Width of hood 1" below bottom of face opening approximately 10 %".
- 11. Width of hood above shoulder cap, approximately 12".
- 12. Length of hood below face opening, approximately 14.

#### **STITCH TYPES AND SEAMS**

- All stitching conforms to Federal Standard 751 Specifications (FED-STD-751).
- Agior seams are flat seam assembled with stitch type 607.
- Elastic around face opening is serged in with stitch type 504 and reinforced with bottom cover-stitch type 406.
- Binding is applied with bottom cover-stitch type 406.

#### LABELING AND USER INFORMATION

- UL Certified FR label facilitates tracking and identification through bar-coding, sequential numbering and personalization.
- "PROPERTY OF: \_\_\_\_\_" feature allows user to simply write their name with permanent laundry marker directly on label for permanent identification.
- Each hood is clearly labeled to identify material contents, NFPA acceptance, UL Classification, Date of Manufacture, Lot Tracking Number, Style Number, Statement of Made in USA and Care Instructions.
- Each hood includes a complete user information guide.

# SPECIFICATIONS

#### **CONSTRUCTION**

- Completely redesigned hood which reduces excess fabric under chin to base of neck for a more comfortable fit and better interface with turnout coat collars; eliminates face opening pulling away from the bottom of SCBA mask when looking up.
- The bib is narrowed down to avoid being "locked-down" by shoulder straps for air supply tank and bound with BarriAire Gold rib knit.
- Entire structure of hood is made from quilted composite to maximize protection from harmful particulates.
- Sure-Fit<sup>™</sup> panel provides improved comfort, fit and performance. Three inch wide panel, begins at face opening, extends over the crown of head to the bib seam.
- For contoured fit, hood is seamed from top of face opening to the bib seam, as well as from Sure-Fit<sup>™</sup> panel down to bib, near coronal plane.
- Face opening is circular and serged with x-heavy duty ½" elastic around the perimeter. The elastic is then folded under ½" and cover-stitched. The face opening stretches 25% more than conventional hoods for easy donning and a snug fit around face of SCBA mask.
- Face opening maintains original shape after repeated laundering.

#### **MEETS OR EXCEEDS INDUSTRY STANDARDS**

- UL Classified to meet or exceed the current hood requirements of NFPA 1971, Standard on Protective Ensemble for Structural Firefighting.
- UL Certified to the NFPA 1971, 2018 Edition Option for Particulate Protection.
- Meets NFPA 70E and ASTM F1506 Requirements

3-LAYER QUILTED COMPOSITE ATPV 46 - HRC 4

#### BARRIARE™ GOLD QUILTED FR COMPOSITE

OUTER KNIT LAYER: BarriAire<sup>™</sup> Gold Jersey with non-PFAS DWR finish

#### MIDDLE LAYER: Nomex® Nano Flex

INNER KNIT LAYER: BarriAire™ Gold Jersey with Agion™ antimicrobial finish

#### WEIGHT: 430gsm (12.7oz/yd²)

FABRIC DESCRIPTION: Three layer composite, consisting of a proprietary blend of Meta-Aramid and Para-Aramid jersey with Nomex<sup>®</sup> Nano Flex sandwiched between two layers of jersey. The layers are then quilted together, using an onion pattern to stabilize and enhance the Nomex<sup>®</sup> Nano Flex particulate barrier's durability.
