Determining which size mask to order: Hold your head straight, with chin level to the

ground, wrap tape measurer around your head, starting at the base of your head and

continue under your ears to the bridge of your

nose. Continue around entire head for a

circumference measurement. Compare your circumference measurement to chart below to

determine which size would fit you best. If your head circumference is 22", both sizes will

fit you, there just will be more or less overlap in the hook and loop for adjustment.
